Penambahan CRUD, Datatable, Dynamic Field, Approval - Codeigniter

isabelle
Owner
★★★★★
10.00/10.00
130 Point
#2,517 dari 244,294

Hi, saya memiliki sebuah project dengan framework codeigniter 3.1 di dukung dengan Tampilan / menggunakan Bootstrap 4. Didalam website sendiri sudah terdapat beberapa fitur, namun ada di beberapa menu yang ingin saya tembahkan beberapa CRUD di dalamnya dan beberapa sistem approval (pending, approve, decline / lain sebagainya). Terimakasih.

Pengembangan Pembuatan Website Sekolah

Selamat datang dan terima kasih telah meluangkan waktu untuk membaca Project saya ini. Studi kasus dalam project ini adalah system informasi sekolah berbasis website. Sebelumnya saya informasikan, website ini baru dashboardnya saja, dan butuh pengembangan.   Spesifikasi yang diperlukan 1   Mengerti dan Mahir dalam PHP Native atau setaranya (dikarenakan website ini sebelumnya menggunakan ini) 2.   Localhost (Xampp) 3.   Framework bebas Untuk lebih jelasnya bias langsung bertanya kepada saya...

Penambahan Modul Siakad

Pengisian form kuesioner oleh mahasiswa pada saat mengklik menu khs, form kuesioner muncul. Kuesioner di isi mahasiswa dan di simpan kemudian akan tampil form khs seperti biasa yang sudah ada.(application\views\simahasiswa\v_khs.php) . Kalau sudah mengisi kuesioner sekali saja, tidak perlu lagi di isi kembali mungkin bisa kita isi pada setiap tahun akademik saja misalnya 2019-2 (hanya sekali isi) /2020-1 (hanya sekali isi) dst.. Menampilkan persentasi/grafik rata-rata jawaban kuesioner pada modul admin Pengelolaan krs oleh mahasiswa

Membuat Penjumlahan, Kodefikasi database dengan PHP Codeigniter
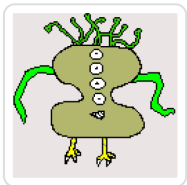

Membuat penjumlah, kodefikasi dari database dengan menggunakan PHP Codeigniter. Hasil penumlahan dan kodefikasi dimasukkan dalam tabel sesuai dengan kriteria. Tabel terdiri dari 3 tabel. Tiap tabel memiliki kodefikasi yang berbeda. Kesimpulan dari kodefikasi dibuatkan dalam deskripsi (deskripsi sudah tersedia), dengan mengkoneksikan deskripsi dengan hasil pada tabel. Hasil terakhir, bisa didownload (file PDF, untuk halaman tabel dan halaman deskripsi) Catatan: Database, Codeigniter dan peralatan sudah tersedia,...

Slicing PDF(HTML) ke HTML #5

Dibutuhkan untuk men slicing / konversi dari dokumen pdf ke HTML. Peraturan: Tidak boleh menggunakan converter online pdf to html. Penulisan class dan div harus terbaca dan tidak boleh menggunakan table , background putih, font harus sama. Disediakan contoh frameworks css Gambar dari pdf dapat di extract di (pdf image extractor) usahakan tidak pecah. Semua field yang dynamic atau dapat berubah ditambahkan {{nama_text}} contoh: Nama Lengkap menjadi {{Nama_Lengkap}} Hasil harus sama dengan file pdf ** Total terdapat 3 file pdf berisi 2 halaman...
